## Side by side

Don't want the entire page to follow a column layout? Try `#side-by-side` !

```
1 #side-by-side[ typ
2
3 ][
4
5 ]
```

```
1 #side-by-side[ typ
2
3 ][
4
5 ][
6
7 ]
```

Consider using `#side-by-side` for a more flexible layout.
